We have all crop protection products including fungicides, insecticides, bactericides and herbicides. Also, fertilizers and stimulants are in place

OUR COMPANY GREAT SERVICES

TRAININGS

Trainings offered range from seed sampling, seed variety identification, seed analysis and seed certification, **local seed business enterprise development and growth**. All trainings are backed up by technical experts and all trainings can be tailored to meet individual needs. We offer trainings for anyone from single delegates up to seminars and conferences for up to 150 people.

SEED CERTIFICATION

ADMINISTRATION

We have a set seed production protocol that we provide for the seed growers to follow to ensure quality seed production. We offer a range of events such as field inspection, sampling and germination test that lead to growth of quality seed. We also support seed out growers to register their business.

BUILDING COLLABORATION

We build strong linkage with local seed business groups to leverage production of seed and create connections with agro- input dealers, local government agricultural advisory services provider and non-governmental organizations to leverage sale of Our products.

● OUR COMPANY

OUR EXPERTISE

BUSOGA SEED SOLUTIONS

WE DELIVER QUALITY SEED ALWAYS

Founded by Agricultural experts

Busoga seed solutions agri-business business idea was founded by three experts with long term experience in agricultural extension services and local seed business.

The experts understand the difficulties of farmers and founded a company with a national presence to anticipate farmer needs, specializing in designing and innovating products that respond to the needs of our farmers plus a strong commitment to maintaining quality.

1.

Focus on the farmer

Farmers are at the heart of everything we do. Our experts actively engage with farmers to evaluate their needs and design products that address their needs. This hands-on approach adds extra value for farmers, helping them to maximize crop potentials with minimum inputs leading to longer term prosperity.

2.

Committed to Quality

Our ethos is to cultivate progress in agriculture through dedicated adherence to standard seed production and processing protocols. BSS works directly with research institutions, getting the best foundation seed to produce quality seed for Our farmers. Our production and processing are certified in accordance with the highest quality standards of MAAIF and USTA.

3.

National Presence

Busoga Seed Solutions headquarters are situated in Kampala and in Bugiri and an extensive distribution network providing services in ten districts. This national presence enables us to be close to our farmers. It allows us to offer technical support and to anticipate and respond to local needs by delivering seed that fits specific growing conditions and market requirements.
